## ORGANIZATION APPS

Icon	App Title	Price	App Description	Rate
<b>BEHAVIOR/DATA COLLECTION APPS</b>				
	ABC Data	4.99	Data collection tool for counting behaviors by simple tallies or percentages, recording duration, and emailing the data.	3.5
	Behavior TrackerPro	29.99	Track ABC data, frequency and duration, and high frequency data, and graph them.	4.5
	Skill Tracker Pro	29.99	STP allows unlimited clients and observers, optional video capture and charting/export of all data. During cold probe data collection, skills and targets are automatically randomized, or the user can choose which target to probe, one at a time	3.5
	Autism Tracker	49.99	AutismTrack is a journaling tool that empowers caregivers of those with autism to easily track interventions, behaviors and symptoms. Checkboxes allow daily recording of any therapy, medicine or diet.	4
	Percentally	2.99	Tally counter that automatically converts tallies to percentages	3.5
	Functional Assessment Data Collection	4.99	Slide several reels to select the observed behavior, its antecedent, consequence, and name of the client engaging in the behavior. If the items on the reels don't match the specifics of your clinical setting, you can modify the items on each reel on the Updates screen for quick customization.	2
	Behavioral Journal	9.99	Easily record all behavioral data and sync to the internet portal for detail report creation and analysis robust dashboard or directly email it to yourself. - allows the capture of a behavioral episode. _Target behavior parameters can easily be customized per kid. _Analysis and graphing capability allow for a deeper analysis later to recognize any patterns. _All data captured can be emailed for archive and sharing purposes	3
	iBehaveWell	.99	iBehaveWell was created to help teachers monitor, track and share behavior data with students, parents and administrators with a few simple taps. It can be used with an entire class or a select group of students who have demonstrated a need for a behavior modification plan.	/
<b>NOTE TAKING APPS</b>				
	Awesome Note	3.99	Combines notes with to-dos that are transferred to email, Google Docs and Evernote.	4
	Evernote	Free	Create text, photo, and audio notes that synchronize to your computer.	3.5
	Keynote	9.99	Control a Keynote slide presentation on your computer from your iPhone or iPod touch.	3.5
	Textfree	free	Utilizing a Textfree email account, send and receive unlimited texts free for a whole year.	4

	Numbers	9.99	Numbers made the list due to its built in attendance-taking templates. Forms are simple to create in a new tab and integrate with the attendance data. Attendance taking is very quick using the tabbed forms within Numbers' attendance templates.	3.5
	NoteTaker HD	.99	version 5.1 has a few new features and some bug fixes: New Move to Front and Move to Back buttons, over 20 new shapes including many commonly used for flow chart diagrams, extra support for the iPad 2 camera	3
	Idea Board	1.99	Four different writing surfaces to help you organize your thoughts. Jot down lesson plan ideas, make notes, and create reminders.	2.5
	Docs Anywhere	1.99	Capable of reading Word, Excel, PowerPoint, .pdf files, rich text, plain text, HTML, and other file formats, it allows transfer between desktop and portable device using USB and iTunes.	3
	Outliner	4.99	Users create and streamline lists and outlines for various projects, making this an excellent resource for writing up lecture notes, keeping grade sheets, drawing rubrics, and more.	3.5
	Write Pad	9.99	If you prefer to write rather than type, then this app converts your handwriting on the iPad into readable text – use your finger or a stylus to get your point across.	3.5
	iThoughts	7.99	iThoughts is a mind mapping tool for the iPhone/iPod Touch. If you have an iPad then please check out iThoughtsHD. Mindmapping enables you to visually organise your thoughts, ideas and information. Typical Uses:• Task lists. • Brainstorming. • Project planning. • Goal setting. • Concept mapping. • Course Notes/Revision. • Meeting Notes.	4
<b>FILE SHARING APPS</b>				
	Dropbox	Free	Dropbox files to view download for offline viewing, capture and sync photos and videos, and share links.	4.5
	GoodReader	4.99	Use this app to access all your documents, PDF files, video and audio files, spreadsheets and many other kinds of files over a wireless network or via USB cable – it makes it dead easy to retrieve files from other systems.	4.5
	Edmodo	Free	Here's an app for use outside of the classroom, to reinforce the lessons you've taught. Site designed for teachers and students to interact, as well as for teachers to network with one another. The free, universal app makes it easy for teachers and students to interact in real time with their iDevices.	3.5
<b>FLASHCARD APPS</b>				
	Cram-Flashcards & Multiple Choice study tool	3.99	Cram actually offers quite a few benefits for teachers as well. The multiple choice, flash card format saves resources, time, and energy when it comes to whipping up a quick assignment, quiz, or test. In addition, users are granted the ability to access an online database of questions as well as pre-established assignments.	4.5
	FlashCards	2.99	Upload a .csv file online that imports text to the app, and then add photos and audio to your flashcards.	3

	Google Mobile	Free	Access Google Apps and search using your voice, and use Safe Search for content filtering.	4
	Flashcards deluxe	3.99	Make your own flashcards...can have pictures and sounds...also can use their site to download other flashcards that people have shared	4.5
<b>CLASSROOM APPS</b>				
	iResponse/ iResponse Pro	.99/ 4.99	With free desktop software, this is a classroom responder system for enabling interactive lectures.	4.5
	Whiteboard	1.99	Use shapes to specify meaning in images from your camera and photo album, and invite others to view.	3.5
	Flipboard	Free	Simply use Flipboard to follow current events, choosing a precise news feed or collection of feeds to suit your class.	4.5
	Expedition	.99	With "Expedition" you can use your iPad to navigate anywhere on the web and mirror that content to your class. It also includes a built-in laser pointer so that you can highlight important information. As a browser it is pretty bare bones, but definitely functional and fast. I wish that it imported and synced with your Safari bookmarks, but you can create your own bookmarks within Expedition.	3
	ShowMeApp (*ipad only)	Free	The ShowMe App allows the user to record annotations along with voice right on the iPad, essentially turning the iPad into an interactive, recordable "whiteboard."	4.5
	Mobile Air Mouse:	1.99	This is the perfect tool for hosting presentations and conducting lectures using an interactive whiteboard. It turns your iPad into an all-in-one remote control that you can use to manipulate the board without having to resort to using a wireless keyboard and a mouse	4.5
	eClicker Host	9.99	The app is universal and works over Wi-Fi. The beauty of eClicker is that students can use any Wi-Fi device with a browser to interact with the class. From surveys to pop quizzes, eClicker can make your class more interactive and exciting. Students with iDevices can use the free eClicker app to formulate and send their responses to eClicker Host questions.	3.5
	ITPADD	3.99	ITPADD is a new innovative iTouch/iPhone application that was developed to provide individualized portable curriculum for multiple students, reduce cost of traditional materials, increase instructional time and provide teachers with resources in the palm of their hand. A special education teacher who has extensive knowledge in the field of special education and assistive technology designed the ITPADD.	5
	TeacherPlan	13.99	TeacherPlan uses the teaching topic to generate customized lesson ideas it's easy to see lots of new and interesting ways to teach your lessons. Teachers are busy people and so being able to use every moment of free time is important; when you're waiting for the class to arrive (having been let out late) or you find a meeting has finished early, you want to use those precious moments wisely. Lesson ideas are separated into Objectives, Starters, Activities, Plenaries and Homework	5
<b>RESOURCE APPS</b>				

	Discover (*ipad only)	Free	There's no need for encyclopedias today with Wikipedia and other instant sources of information. Discover joins this list as the go-to app for the iPad when you need information on just about anything in the world	4.5
	QuickVoice Recorder	Free	Record your class lessons, and listen back to them for more information on how you can improve. A great way to record teaching ideas and make notes on students quickly and easily.	3
	Voxie		Voice recorder can purchase transcription	4
	ToDo	4.99	Task Management with alerts, subtask, checklists, and synchronization with Outlook or iCal.	3
	Wikipanion	Free	Using predictive text, search for Wikipedia entries, and bookmark the whole entry or individual sections.	3.5
	Bump	Free	By bumping two phones together, exchange contact information and photos without typing.	4.5
	Dictionary	Free	Using predictive text, search for a word and its definition/synonym in content from dictionary.com or thesaurus.com.	4.5
	AppBox Pro	.99	With 18 applications in one, there are currency/unit converters, tip/loan/periodic calculators, and a translator.	4
	Complete Class Organizer (*ipad only)	4.99	The one app to organize all your classes! Take notes while recording lectures and the audio will sync to the text, manage homework & exam dates, store & calculate grades, and organize info for each class. This app differs from other note-taking apps in that it's designed specifically for students to help them manage all classes throughout their school career.	4.5
	iChoose	Free	iChoose is the little metal button that knows your mind. Use the Yes/No, Coin Toss, Dice Roll and Card Choice to make decisions for you, or as an aid to your entertainment activities.	3
<b>GRADEBOOK/ATTENDANCE APPS</b>				
	iGrade	5.99	iGrade for Teachers is the first application entirely designed by and for Educators. It is a simple but powerful tool to manage all your student information including notes, tardies and absences. iGrade for Teachers is storing all your grades, whatever the scoring format is and is providing you detailed statistics in real time.	3
	My Gradebook	.99	This app combines grade-logging and assignment tracking capabilities with customizable features that allow you to tailor My GradeBook to your personal academic situation.-Calculates up-to-date grades for all of your courses, Handles weighted (percentage-based) and point-based grading systems, Calculates your current GPA, Allows custom GPA point setup, Displays assignment status icons, Includes option to use plus/minus grades,	4

	TeacherPal	Free	Take attendance; track grades and behavior for your students. Set up a profile for each student that can even include information such as allergies. You can email parents and/or students directly from the app.	4
	TeacherTool	30.99	Options and settings are a plenty and if you want more than just simple attendance, assignments, and grading, look no further than TeacherTool. In addition to the standard grading features, you can set up of checklists for events, such as tracking which students have paid for the upcoming field trip. Data is easily exported for Excel via email attachment.	3
	Essay Grader	5.99	The app provides criteria checkboxes to quickly evaluate essays and writing assignments, which generate a graded evaluation form. Each step can be (and should be) personalized for the student with more specific comments. The app then allows for exporting to your computer and emailing to the student. If you teach a subject with serious writing assignments,	/
	Stick Pick	2.99	You put each child's name on a "stick" and tap/shake/swipe to choose one at random. Incorporate Bloom's Taxonomy get a list of question stems appropriate for each child's level. In Bloom's mode, for example, you can choose from six levels of cognitive development: Knowledge, Comprehension, Application, Analysis, Synthesis, and Evaluation.	4
	My Homework	Free	Keep track of homework, classes, tests, and projects with number reminders on the app icon.	4.5
	BrainPop	Free	Watch and learn with a daily stream of fun, animated videos.	5
	iHomework	1.99	Before school even starts, you'll want to get yourself organized. This handy school organizer keeps your courses, school work, grades, to-dos, teacher information, and more right at your fingertips. Sync information between your iPhone, iPod, iPad, and Mac with this useful app.	4
	Planbook Touch <b>(*ipad only)</b>	9.99	Planbook lets you create lesson plans using six customizable text fields. You can easily create assignments with assigned and due dates and attach web sites directly to your lessons. You can view an entire week of lessons at once, or zoom in and focus on one day at a time. Making quick edits is as simple as tapping once on a lesson. For more extensive editing, tap with two fingers on any lesson to bring up a full screen editing mode.	4.5
	SLP Goal Bank <b>(*ipad only)</b>	14.99	The SLP Goal Bank is designed to be used as a clinical tool for speech and language pathologists. The SLP Goal Bank is an application developed by Smarty Ears, LLC designed to serve as a starting point to speech and language pathologists when creating goals for children and adults with speech and language delay. It is designed specifically for speech and language pathologists with the appropriate training and accreditation to allow them to work with these clinical populations and should only be used by such professionals.	4.5

### VISUAL TIMERS APPS

	Giant Scoreboard	Free	A generic scoreboard, featuring: Timer/Countdown (editable); Team names (editable); Giant digits, visible from 50ft; Fits any sport; Simple, accurate and reliable.	4.5
	Time Timer	4.99	Improves time management with a visual depiction of time, and optional audible and vibrate signals for iPhone.	4.5
	Autism Timer	2.99	Autism Timer is a digital timer that shows the elapsed time clearly and is easy to use. You can set three different time for green/yellow/red zone. When the timer is done, it beeps/vibrate and show the black and white square flag. It uses the full screen of the iPhone/iPod touch without any additional clutter while running.	2
	Visual Countdown Timer	2.99	Visual Countdown Timer is a digital timer that shows the elapsed time clearly and is easy to use. You can countdown from any duration (one minute till hours) and customize the look. It uses the full screen of the iPhone/iPod touch without any additional clutter while running. It helps to better visualize the concept of time, useful for example during an oral exam or to teach time to kids.	/
	Timer with Sections	1.99	The 'Timer with Sections' supports you during your performance (e.g., a talk or keynote speech, a seminar or lecture, a workout) by providing intuitively visualized timing information.	4
	VisuoTimer	Free	Easy-to-use visual timer for children and youths with autism or ADHD. The tool was developed to be used in our work as educationalist in Denmark. We would like to share it with children, parents and professionals - all over the world.	4
	Visual Timer	.99	Time Timer for iPhone depicts time using a bright red disc that slowly disappears as time elapses. You can set it three different ways to help you improve productivity.	4
	Easy Kid Timer	.99	Easy Kid Timer is a fun visual timer for a parent or teacher of any child learning patience and the concept of time. Great for children with autism: time kids can "see" is crucial to their understanding of time and patience.	4.5
	Activity Timer	.99	Activity Timer is a simple to use visual minute timer. Features: * Swipe dial to set timer in minutes (max 60 mins) * Set the Alarm sound * Option for timer face to change color from Green->Yellow->Red * Option to set a default timer length, timer can be reset to this length from menu	4.5
<b><u>VISUAL SCHEDULE/REINFORCER APPS</u></b>				
	iReward	4.99	With this motivation chart, choose the behavior, the reward from your camera or photos, and optional praise.	4.5
	iRewardChart	3.99	With this motivation chart, assign tasks, track progress, and pay rewards for achievements.	4.5

	iEarnedThat	1.99	iEarnedThat works because it keeps children interested in accomplishing things through providing instant and ongoing positive reinforcement	3.5
	SmartCharts	2.99	Smart Charts, by Happy Face Kidz, is a tool for parents and teachers to track, reward and reinforce positive behaviors, chores and responsibilities for kids	4.5
	ChorePad HD	4.99	Help users keep track of any chores that need to be completed. The software provides users with a full weekly chore chart, with options for dispersing chores to different individuals and tracking rewards for finishing chores.	4
	First Then	9.99	Audio-visual prompting tool for scheduling daily events or steps to complete an activity.	4
	Ididit!	1.99	Reward app that acts as a sticker chart to earn a reward. Not sure how many kids you can put on it	/
	Picture Scheduler	2.99	Picture Scheduler is tasks organizer for people with disabilities. We have been asked if our app Audio Notes, could be more optimized for creating and organizing personal tasks for individuals with disabilities. We thought that it would be great to create an app, which can help thousands of people who rely on visual and auditory supports to do their common tasks easily.	/
	Steps	9.99	Adopted by school districts, SLPs, ABA teachers and educational centers world-wide. It allows any user to organize a set of information in a checklist list format. Typically, it could be used as an activity schedule that illustrates a sequence of steps to perform a task. Alternatively, it may be used to implement daily activity schedule.	3.5
	Functional Planning System	9.99	Our Functional Planning System provides a visual approach to daily planning. Utilizing the power of video modeling, the Functional Planning System can be used to plan out a user's entire day. Think of it as a cross between a video playlist and a calendar app. Activities can be scheduled, and step-by-step videos prompt the user through the completion of the activity. Alarms can be set and even made to be recurring for daily tasks. Videos for many activities are already (available through in-app purchase) as part of our Functional Skills System video library, which has over 4,000 images and videos to choose from.	3
	Video Scheduler	12.99	Scheduler offers a variety of features in an easy to use interface allowing maximum customization. These features include various orientation locks, which prevent students from engaging in stimulatory behaviors with the video. Users can also select from three video and picture sizes. There's also a pass code function, which can be applied to prevent users from skipping around to preferred aspects of their schedule.	4
	Visual Schedule Planner	17.99	Visual Schedule Planner is a completely customizable visual schedule iPad app that is designed to give an individual an audio/visual representation of the "events in their day". In addition, events that require more support can be linked to an "activity schedule" or "video clip" to help model the task even further. Visual Planner is perfect for home, school, work or community environment.	4

	FirstWords: At Home	.99	With pictures of over 30 items around the house, touch a letter to hear it, and drag it to the correct word position.	3.5
	Word Magic	.99	With a picture shown and a letter missing in a word, select the correct choice for reinforces and rewards.	4
	KinderMatch (*ipad only)	Free	KinderMatch is a Education App for Preschool children. It is a matching game. The rule is to identify identical objects and pair them up. Objects are removed when paired. This helps to develop and improve organization skills in children.	3
	Sight Words & Digraphs	.99	Sight Words and Digraphs application is designed keeping young kids in mind. It is very ideal for kids between the ages 5 to 8. It is an excellent application for kids to have fun with words and their spellings.	4.5
	Meet the Vowels	Free	Three letters appear on screen in either upper or lowercase format. The narrator calls out the name of a vowel, and when your child taps the correct letter it transforms into the character from the award-winning DVD: Meet the Letters. Large letters make it easy for little fingers to tap, and fun celebratory music in each scene encourages them to play over and over again!	3
	Fill the gap	2.99	Fill the Gap, the new version of this popular software already used by several hundred thousands of children in schools all over the world to improve pupils' literacy and spelling skills.	/
	ABC 123 WordApp HD	1.99	With four different activities filled with music, sound, voice and pictures, your child will have fun while effectively learning the essence of alphabets, words, numbers, counting, shapes and colors.	4

	KinderSpell	Free	KinderSpell is a Kindergarten Educational App for pre school children. It helps children to build up vocabulary of many English words.	3
	iLook	free	High contrast, white on black picture book with 5 categories (e.g., animals, food) for young children.	3.5
	Mika's adventure	9.99	Mika's Adventure makes good use of the iPad's touch interface as students solve puzzles, play games and interact with story elements. The hidden secrets and atmospheric sounds really draw the reader into the plot.	3.5
	Shake a Phrase	1.99	Shake your iPhone/iPad to create a new silly sentence every time. Tap on the words to see the definitions. Perfect for fun and learning on-the-go, this lightweight app features over 2000 words and definitions in 5 colorful and engaging themes - all new Sports theme just added!	4
	<b>ABC Phonics Rhyming Words Lite</b>	Free/ 2.99	By matching rhyming words, this game helps children recognize common word patterns, and understand how the initial consonant, middle vowel, and ending consonant affect pronunciation. They will learn to distinguish between long and short vowel sounds, and they will learn to pronounce consonant combination, such as "ch" and "sh". These are all important stepping stones to becoming a proficient reader	3
	Beginning Sounds Interactive Game	Free	Kids match words that share the same beginning sound! Children just "grab" fun picture balls and drop them into the correct spots on the board. For ages 4-7 years.	5
	Phonics Genius	Free	WOW... over 6,000 words grouped by phonics sounds. This app is awesome to teach phonic awareness! One of the best ways to rapidly learn how to speak, read, and recognize words is through phonic awareness. This app is specifically designed to help students recognize and distinguish words by sounds	4
	Monkey Thinks	Free	MonkeyThinks uses speech recognition technology to help your toddler identify and correctly pronounce dozens of words.	4
	ABC Magic	Free	This app will help your child learn the sounds of the letters of the alphabet, which are necessary for reading. Learning the sounds of the letters gives your child the tools for reading and helps them become better readers. A matching phonetic photo image is matched with each letter to help your child learn the sound of each letter.	4

**MIDDLE/HIGH SCHOOL BOOK APPS**

	Kindle for iPhone	free	Download and read Kindle books, highlight and take notes, and select alternate text and background colors.	3
	eTextbooks	free	When connected to the Internet, access your eTextbooks to read them and to view your notes.	3
	Shakespeare Pro	9.99	Shakespeare Pro™ includes all the features of the free Shakespeare app; the complete works of Shakespeare (41 plays, 154 sonnets and 6 poems, including doubtful works) and search the concordance to find the exact word or phrase you're looking for (with "relaxed" searching to find words close to your search term).	4
	Stanza	free	Download from over 50,000 free books, and read them with tabbed navigation, copy support, and note sharing.	4
	Charles Darwin's Writings	1.99	Well written, concise and definitely approachable by anyone. The primary explanation of the process of evolution in the 1930s, and now forms the basis of modern evolutionary theory. In modified form, Darwin's scientific discovery remains the foundation of biology, as it provides a unifying logical explanation for the diversity of life.	/

For example, dividing a circle into four equal parts is one way to show the fraction one-fourth.	2
	Jungle Fractions (* <i>ipad only</i> )	2.99	Tutorials for beginners, Name, compare, and add fractions visually, Convert fractions between improper and mixed format, Score tracks progress, Hear fractions in multiple languages with native speakers.	4
	Fractions: Adding and Subtracting	.99	Understand that fractions represent a number of equal size pieces of a unit, See how fractions with common denominators can be added by summing their numerators, Discover why fractions with unlike denominators must be rewritten as equivalent fractions with a common denominator, Visualize fraction addition and subtraction using both fraction circle and number line models\\	4
<b>VOCABULARY/Dictionary APPS</b>				
	Math Dictionary for kids (* <i>ipad only</i> )	4.99	This interactive app allows users to search for terms, mark favorites for studying further, take notes on definitions, see related terms, and view the word of the day. This app includes illustrated, concise explanations of the most common terms used in general math classes, categorized by subjects that include measurement, algebra, geometry, fractions and decimals, statistics and probability, and problem solving.	4.5

MIDDLE/HIGH SCHOOL ALEGBRA/TRIG/GRAPH APPS				
Icon	App Title	Price	App Description	Rating
	Symbolic Calculator	.99	Different operations from the simplest multiplications to computing the integrals of the most complicated functions	4.5
	Algebra Solver	.99	This program is NOT just a flash card application. Algebra Solver SOLVES math formulas and equations; after you solve them, you can even EMAIL them to others using the built-in email button. From simple formulas, to more complex physics problems,.	3
	My Formulas	.99	Fully customizable formula calculator. Keeping ease of use in mind, myFormulas provides a new and intuitive way of creating, editing and calculating diverse formulas. You can make a wide variety of formulas which can be as simple as a tip calculator and a unit converter, or as sophisticated as an electronic engineering calculator.	
	The Mathmaster	.99	Need more help with your math facts? Chances are yes, and that's exactly why there is MathMaster. MathMaster also includes a powerful settings page allowing you to fully customize which problems it generates.	/
	Trigonometry Calculator	2.99	Users can solve any triangles, circles and unit circles problems very easily using this calculator. No more trying to grab your calculator or trying to recall the sin, cos & tan rules. This is the only trigonometry calculator you will ever need.	3
	Mathsmagic	.99	Amaze and delight others as you multiply, divide, and square at lightning fast speed. Learn and practice the tricks of mental math calculation in a fun and engaging application. Study any of the math tricks and then practice them as you progress through various levels of proficiency.	3
	Math Plus	.99	By presenting you with randomly selected simple maths problems that require combining basic arithmetic knowledge, helps you to develop your problem solving skills, and by allowing you to play with others, it adds a level of fun and challenge to this process.	3
	TanZen	1.99	Tangrams have been challenging minds for centuries, with the deceptively simple goal of combining seven geometric pieces into a shape. Choose a puzzle to solve, and try to fit all seven game pieces within the shaded puzzle area without overlapping. TanZen will recognize when the puzzle is finished.	4.5
	Equation Solver:	Free	Get solutions to dozens of problems in various topics such as: Arithmetic or Geometric sequence, Line problems, Equations, Proportions, Percentages, Complex Numbers, Inequalities, Vectors etc,	2.5
	Fractions Calculator:	.99	Just type in the fractions you want. Select any of the editable fields and the keypad appears. The field being editing is shown with a yellow background. You can change more than one number at a time by selecting each field and typing the number.	2.5
	DiaMath	.99	Configurable to quiz you with 10, 20 or 30 problems. All the problems are generated by the iPhone and randomized so there is a virtual unlimited set of possibilities. DiaMath provides three different levels of difficulty as well as allowing you to choose a range of numbers from 1 to 99. Additionally, DiaMath has a timer.	3.5

	Talking Calculator:	.99	Hear all of your numbers and results announced as they appear on the screen! Great for visually impaired or for anyone who wants to verify accuracy without looking back at the screen.	3
	Formulas	2.99	Over 250 equations it will be tough to find the one you need. Added super smart search bar to aid your searching. Just pull down the list to reveal the bar and start typing. If you have $\sinh()$ in mind, type $\sinh$ or hyperbolic.	3.5
	iFormulas	Free	Provides basics to survive your Algebra, Calculus, Geometry or Trigonometry class. It does not give you answers but provides an easy navigational guide. Over 330 different formulas, definitions, laws, properties, etc.	3.5
	Formulus	1.99	A perfect study tool. It is a simple, easy to use, easy to navigate collection of the most important formulas and topics for high school and college students taking Calculus and Differential Equations.	3
	Pi Cubed	9.99	Visual math application designed from the ground up for a touch-based interface. Unlike traditional calculators, Pi Cubed lets you construct, typeset, and instantly evaluate mathematical expressions using an interactive menu system.	4
	Quick Graph	Free	This is a powerful graphic calculator that takes full advantage of the multitouch display and the powerful graphic capabilities of the iPad and iPhone, both in 2D and 3D. A simple, yet intuitive interface that makes it easy to enter and edit equations and visualize them.	4.5
	Equation Genius:	Free	Equation Genius will help you do you math in seconds. It supports: 1st degree equations ( $ax + b = c$ ), Quadratic (2nd degree) equations ( $ax^2 + bx + c = 0$ ), Cubic (3rd degree) equations ( $ax^3 + bx^2 + cx + d = 0$ ), System of two unknowns (2 variables), System of three unknowns (3 variables).	3
	MyCalculator	1.99	A scientific calculator for iPad and iPhone that solves as you type! MyCalculator also features an innovative memory system to store and recall answers. Simply touch answers to store them in multiple memory slots.	3
	Scientific Calculator	1.99	Solve is an Touch calculator replacement designed with simplicity, usability, and beauty in mind...Once you try Solve you never go back. Access to 4 different calculators: 1- Handwriting calculator 2- Scientific calculator, 3- Quadratic equation solver 4- Linear equations.	2.5
	Algebra Touch	2.99	Have you forgotten most of your algebra? Algebra Touch refreshes your skills using techniques only possible on your iOS device. Say you have $x + 3 = 5$ . You can drag the 3 to the other side of the equation.	4.5
	Quick Graph	free	The graphing calculator can plot 2D and 3D equations with ease, and up to three equations can be visualized simultaneously	4
	Units	free	This handy utility is a unit of measurement converter. You can convert area, currency, energy, temperature, time, length, weight, speed, and pressure quickly and easily.	4
	GraphingCalculator	1.99	Scientific calculator and high resolution function plotter to trace multiple equations on the same graph.	3.5

	Sum of Exterior Angles	Free	Form a polygon by plotting points and reducing the figure until all exterior angles converge around one point. Using algebraic and geometric applications, you will discover that the sum of the exterior angles of regular and nonregular convex polygons is always $360^\circ$ .	4.5
	Video Calculus (* <i>ipad only</i> )	Free	Video Calculus covers everything from limits and derivatives to differential equations and vector calculus. By downloading Video Calculus you will have access to over 15 Featured Lessons	4.5
	Statistics 1	4.99	Includes tutorials, lessons, quizzes, flashcards, decision trees, calculators, and glossaries for terms, formulas, and symbols.	3.5
	Wolfram Algebra Course Asst.	1.99	This definitive app for algebra--from the world leader in math software--will help you quickly solve your homework problems, ace your tests, and learn algebra concepts so you're prepared for your next courses	4
	Wolfram Calculus	2.99	This definitive app for calculus--from the world leader in math software--will help you work through your homework problems, ace your tests, and learn calculus concepts. Forget canned examples! The Wolfram Calculus Course Assistant solves your specific Calculus problems on the fly including step-by-step guidance	4
	Wolfram Statistics	1.99	This definitive app for statistics--from the world leader in math software--will help you work through your homework problems, ace your tests, and learn statistics concepts	3
	Algebra	9.99	YourTeacher's Algebra app offers 116 Algebra lessons featuring your personal math teacher in every lesson! 400 whiteboard video examples! 1000 interactive practice worksheets with 2000 extra problems!	3.5
	Algebra Kaiser	1.99	Practice your ability to handle variables, expressions, terms and simple equations. 17 different types of dynamic exercises ranging from simplifying terms to exponents, linear equations and their graphs.	4
	Alge-Bingo	.99	A very unique app that incorporates 13 progressively more difficult levels to develop equation-solving skills within a Bingo game. The user can choose the look of the game, what type of Bingo game they want to play and the level of difficulty of equations that they want to solve,	4.5
	Geometry for ipad	.99	Provides a basic 101 overview of Geometry: Angles, Triangles I, Triangles II, Quadrilaterals, Special Quadrilaterals, Circles I, Circles II, Polygons, Solids In Space I, Solids In Space II, Symmetry, Formula For SAT And GRE.	
	Easel Algebra	Free	Over 100 practice questions with instant "ShowMe" lessons: if you get stuck on a problem, just tap "ShowMe" and see a step-by-step animation of how to solve the problem, instantly.	3

<b>SCIENCE APPS</b>				
Icon	App Title	PRICE	App Description	Rate
<b>VOCABULARY/DEFINITIONS APPS</b>				
	Science Glossary	free	This Science glossary has the rare feature of being bilingual. You can read it in English or Spanish. The glossary has hundreds of scientific terms and also some mini biographies of some luminaries from the world of Science.	5
	Biology Glossary	1.99	This is a glossary of all things having to do with Biology. We have built this glossary with ease of use in mind. We have designed it so that you can easily find what you are looking for without the confusion and frustration like so many other applications.	
	Video House	Free	These videos are 2 to 3 minutes in length and demonstrate the steps of simple science experiments. The experiments are designed to inspire and excite kids of all ages, with very little set-up time and using only low cost materials.	3
	101 Science	free	There are questions on Biology, Chemistry, Physics, General Science and Earth Science.	3
	Nature Facts	Free	Nature Facts brings over hundreds facts related to nature. The facts are categorized into: Animals, Astronomy, Biology, Bugs, Earth, Human Body, Ocean, Trees, Weather.	3.5
	Google Earth	free	Spin the globe or navigate the planet with a swift swipe of your finger, zoom in and out by pinching, and tilt the world by tilting your iPod touch.	4
	A Science Quiz	.99	A summary of the practice test is presented at the end of each test. It shows you the time you took, the score, which questions you answered correctly and where you were wrong. • Physics, Chemistry, Biology, Zoology, Earth, Inventions, Space.	4.5
<b>ANIMAL APPS</b>				
	Dinosaurs: The American Museum of Natural History Collections:	2.99	This app gives you access to the world's largest collection of dinosaur fossils as photos and recreations, and that adds up to hundreds of individual images.	4
	Spiders Study Guide	1.99	This app stores all relevant pages about Spiders from Wikipedia on your device so you can view them whenever you like with no need for Internet access. If you need to learn anything about Spiders, you'll always have it with you! Every article is indexed so you can find the exact topic you need to learn about.	3
	Frog Dissection	3.99	Vivid 3D images will help students visualize the internal organs very effectively. For enhanced learning experience, the app also has information on the different types of frogs, frogs' life cycle, anatomical comparison of frogs with humans, an interactive quiz and detailed descriptions of the organs.	4.5
<b>WEATHER APPS</b>				
	The Weather Channel	free	This app is packed with features such as local and national weather alerts, customizable radar maps, location based forecasts, and video of local, national and international weather. You can view hourly, daily or even 10 day forecasts.	4

	iDress for Weather	1.99	iDress is as simple as providing you with a weather forecast and a closet full of acceptable clothing that corresponds to that weather. When you open up the app it asks to use your current location and then gives you a weather estimate.	4
	Weather HD	.99	Weather HD is a visually striking way to look at the weather. Once you set up your city, or cities, of choice you will be greeted with a gorgeous video representation of the current weather conditions. Rolling clouds, dew laden grass, and golden sunsets are just some of the animations you can expect. You can view the next 4 days weather, see wind speeds, humidity and temperature too.	4
	iCelsius	.99	The current app downloaded from the App store will read the temperature, create graphs and set up alerts. The iCelsius measures temperatures between -22°F to 158°F (-30°C to 70°C) and is suited for many applications.	5
<b>LIFE CYCLES</b>				
	LifeCycles	.99	A life cycle is a period involving different stages of a species from birth through reproduction. As kids grow, they need to know and understand how life starts, morphs through various stages into a adult and how life starts all over again.	4.5
	3D cell Simulation and stain tool <i>(*ipad only)</i>	Free	Learn about the cell and all its structures using our new 3D Cell tool. Enjoy the ability to rotate the cell 360 degrees and zoom in on any cell structure. Choose from our list of cell structures to learn more about how each structure functions and relates to the other components of the cell. There are over 250 image combinations to explore! This is a great tool for anyone interested in Biology, Biochemistry, or the Life Sciences in general.	3
	LeafSnap	Free	Leafsnap contains beautiful high-resolution images of leaves, flowers, fruit, petiole, seeds, and bark. Leafsnap currently includes the trees of the Northeast and will soon grow to include the trees of the entire continental United States.	3
<b>SOLAR SYSTEM APPS</b>				
	Planets	free	You can view the solar system and constellations in 2D or 3D renderings, and find facts and information on all the planets and their moons. It shows sun rise and sunset times, as well as moon phases.	4
	8 Planets Pro	2.99	Learn and have fun in this exciting collection of 4 educational lessons based on the eight planets in our solar system!	3.5
	Star Walk - 5 Stars Astronomy Guide	4.99	Star Walk enables you to point your iPhone at the sky and see what stars, constellations, and satellites you are looking at in real-time.	4.5
	iLearn Solar System	1.99	iLearn SolarSystem teaches the Solar System. Stunning animations of the Solar System and the planets will capture your attention while Astronaut Ashley talks about each of them.	3
	SkyORB	Free	More than a simple star map, it's a collection of 6 tools including a 3D star map, 3D planetarium, ephemeris, search engine, sun clock and more. It features a 3D interface, a search engine, a large catalog of stars (Hyparcos), deep objects, planets, current satellite.	3.5

	Grand Tour 3D:Space Travel on a Budget	Free	Replicating the solar-system, and its major moons in stunning detail, Grand Tour will let you zip about the solar-system at will and see the sights as they would look like at this very moment. View the planets and their moons from any angle with a simple flick of your finger	3.5
	Distant Suns	6.00	This version is better for pre-iPhone3GS level devices. If you have a newer device, take a look at Distant Suns 3, which is designed for the newer devices and takes advantage of the greater memory and faster chips.	4.5
	Starmap <i>(*ipad only)</i>	11.99	A complete planetarium in your hand. A high quality interactive and ergonomic map, with 350 000 stars, fitted with deep sky images. Starmap displays the exact portion of the sky you are pointing at. Hold the device and discover the map scanning the sky as you move.	3.5
	Solar Walk	2.99	Solar Walk is a beautifully-designed educational application about the solar system. Its space-accurate design and 3D functionality, coupled with a plethora of unique features like Time Machine	4.5
	SkyVoyager	14.99	SkyVoyager is an astronomy app - if you are a beginner, you might want to check out SkyGazer, our "Lite" version. SkyVoyager is a powerful astronomy program, with a database of 300,000 stars and 30,000 deep sky objects.	3
	G	2.99	G allows you to quickly experiment the effects of the Universal Gravitation by adding bodies into the simulation, seeing how they react to each other in real time. G offers a vast universe to add your bodies into	4
	NASA Apollo Photos	.99	Provides a unique photo perspective of the historic program that took people to the moon four decades ago. The apps include over 100 vivid official NASA photographs,	4
<b>CIRCUITS APPS</b>				
	Building Serial Circuits <i>(*ipad only)</i>	Free	Using 3D graphics and 2D electronic symbols, you will assemble different types of series circuits using wires, switches, batteries, and light bulbs. In order to better understand the difference between a series and a parallel circuit, build a circuit that illuminates two bulbs and observe what happens when one light bulb is removed.	4
	Building Parallel Circuits <i>(*ipad only)</i>	Free	Using 3D graphics and 2D electronic symbols, you will build simple parallel circuits by using wires, batteries, switches, and light bulbs. By constructing their own closed circuit with two light bulbs, you will develop a deeper understanding of series and parallel circuits and discover that electricity follows the path of least resistance.	4
<b>ATOMY/BODY APPS</b>				
	Body Parts <i>(*ipad only)</i>	2.99	There are two main approaches used in this App 1) Labeled parts in various Organ Systems 2) Flash Cards of Body Parts / Systems	2.5
	Skeletal Systems	2.99	Learn about the components and functions of the skeletal system! Skeletal System is a fully-featured flash card app that helps you learn the components and functions of the skeletal system.	3.5
	3D Brain	Free	Use your touch screen to rotate and zoom around 29 interactive structures. Discover how each brain region functions, what happens when it is injured, and how it is involved in mental illness.	4.5
<b>GEMS/MINERALS APPS</b>				

	Gems and Minerals	1.99	This app includes detailed information minerals, such as molecular formula, properties, common/gem names, etc. This app is mainly aimed at students, professors, scientists, hobbyists, and those in the field who wish for help identifying minerals, or learn a bit about what they're seeing in the field.	3.5
<b>ELEMENTS/PERIODIC TABLE APPS</b>				
	Periodic Table of Elements (* <i>ipad only</i> )	Free	With this application, one can look up information on 117 different elements. Information which can be found includes: Element name in Japanese and English, Chemical symbol, Atomic number, Atomic mass, Family name, Classification, Period,	3
	Chemistry Ref	.99	A reference app includes 2250 compounds information, all elements, 1500 terms, equations and unit conversion calc. It comes with an easy to use interface and built in search to find whatever you want quickly.	3.5
	Chemical Elements	2.99	This application contains a brief details about Chemical elements, you will find: Name of Elements, Atomic Number, Atomic Mass, Electron Configuration, No of Neutrons, Melting Point, Date Of Discovery, Crystal Structure, Alkali Metals, Alkaline Earth Metals, Transition Halogen, Noble Gases.	/
	The Elements: A Visual Exploration (* <i>ipad only</i> )	13.99	The Elements: A Visual Exploration lets you experience the beauty and fascination of the building blocks of our universe in a way you've never seen before.	4.5
	Molecules	Free	Molecules is an application for viewing three-dimensional renderings of molecules and manipulating them using your fingers. You can rotate the molecules by moving your finger across the display, zoom in or out by using two-finger pinch gestures, or pan the molecule by moving two fingers across the screen at once. These structures can be viewed in both ball-and-stick and spacefilling visualization modes.	4.0
	Periodic Table	.99	This is a standard periodic table of the elements - a necessity for anyone interested in or even exposed chemistry. However, the version differs in that instead of cramming all the information for an element into one little square, you can select a chemical attribute and have the entire chart color coded to plainly show how the different elements vary with regard to the selected trait.	4
<b>PHYSICS APPS</b>				
	Physics	.99	A great reference for High School physics exams. Physics can be used as a study guide for Physics Q&A. Physics includes all the reference tables and the 10 units covered in High School. Each of the 10 units includes common formulas, a brief description of each formula, and examples.	4
	Intellective Physics	Free	The Intellective offers science and math lessons at the touch of a screen, providing audio/whiteboard lectures, short quizzes, and lab simulations to solidify and enhance your learning experience. Earn medals to track your progress with the material, and take your first step to rebooting your learning path.	3

# Social Studies Applications

- Constitution/United States Apps
- States/Countries Apps
- Maps Apps
- History Apps
- Geography Apps

<b>Social Studies Apps</b>				
Icon	App Title	PRICE	App Description	Rate
<b>VOCABULARY/DICTIONARY APPS</b>				
	Coastal Terms	.99	This Coastal Glossary includes terminology used in coastal science, engineering, geology, management, nearshore oceanography and the technologies that characterize, measure, describe or quantify the physical properties, processes and changes of the coastal zone.	3
	Social Studies	.99	To help you navigate this special issue on the Social Studies, we have created a comprehensive Glossary that covers the disciplines of sociology, criminology, political science, and women's studies.. Whether you are professional in the field, a student taking a class, or somebody that just wants to learn more about the Social Sciences.	3
	Medieval Dictionary	.99	This Dictionary includes: Strange legal, feudal, chivalric, monastic, military, and architectural terms to help you to understand what those guys back then were really trying to say.	/
	Magic School Bus: Oceans <i>(*ipad only)</i>	7.99	Discover the Oceans with the Magic School House Bus and Friends.	4
	GeoPlay	Free	Fun geography review and quiz. States, Countries, International Capitals, Continents, Potpourri. Pick and choose the categories, questions per game	4
	Pass the Past	Free	"Pass The Past" is an educational game to help students prepare for Virginia's Standard's of Learning (SOL) exams with a focus on World, United States and Virginia history, civics, and geography.	3.5
<b>CONSTITUTION/UNITED STATES APPS</b>				
	Constitution	free	Students of <u>American history</u> cannot fail to be impressed by this digital version of an historic document. It lets you read through all the articles and amendments in a clear and easy to read format.	3.5
	Civilization Revolution	6.99	Lead your civilization from the dawn of man to the modern age and beyond.	3.5
	On this Day	Free	On this day..." is a stylish calendar that lets you view historical events, birth and death dates.	4.5
	Manual for the United States of America	2.99	Whether you need to cram for a History final or just got a new job leading a world superpower, having America's founding documents close at hand is essential. We combined our free copies of the Constitution and the Declaration of Independence along with several	4
	Presidents	.99	FUN MULTIPLE CHOICE quiz format about the presidents tracks your progress as you go. The app keeps you challenged by remembering what you got right and wrong!	4.5
	iAmerica	Free	Extra effort was made in developing iAmerica to make it the most comprehensive A to Z reference guide to the Presidents of the United States. And as an added bonus we include a handy White House website access guide.	2
	U.S.States	.99	Find the State your looking for easily, either move down the alphabetically arranged list of States or just Search for whichever State you want.	3.5

<b>STATES/COUNTRIES APPS</b>				
	Shake the States	.99	Touch and drag the one of the 50 states to its proper position on the board and it will stick, but make a mistake, and watch the state tumble. Shake the States will provide hours of fun for everyone while kids and parents brush up on their geography.	5
	Stack the Countries	.99	As you learn country capitals, landmarks, geographic locations and more, you can actually touch, move and drop the animated countries anywhere on the screen. Carefully build a stack of countries that reaches the checkered line to win each level.	4.5
	Stack the States	.99	As you learn state capitals, landmarks, geographic locations and more, you can actually touch, move and drop the animated countries anywhere on the screen. Carefully build a stack of countries that reaches the checkered line to win each level.	4.5
	US Puzzle Map	2.99	Click and drag states into place; state names saBody Paid out loud for non-readers	4
	Kids Maps- Map Puzzle Game	2.99	A top fun educational puzzle game app that lets your kids learn about the map of the United States via a fun interactive game play. It uses bright colors, kids friendly interface, and offers a high educational value.	4
	World Fact Book	.99	Like having an encyclopedia in your hand at all times. Locate countries on a map then find out about population, land mass, economies, famous citizens and more. Included large sized country flags and locator, with added additional information for all countries.	3
	Oregon Trail	.99	Gameloft Holiday Sale! To keep you entertained during the last few days of 2010, we're making some of our best iPhone games available for just	4.5
	Kids Can Learn States	.99	Kids Can Learn States helps kids learn the 50 US states, their abbreviations, and their capitals, which is required for elementary school. Our software color codes the state to a specific region on the map	3.5
	Spell the States	Free	Spell the states makes learning our USA state names and flags so much fun! Firstly watch the state flag, see its name spelled and hear the state name in a wonderful narration voice. Now the fun and challenge begins – the state letters fly and scatter on screen	4
<b>MAPS APPS</b>				
	HistoryMaps	Free	"History:Maps of World" is a fun and educational collection of high-resolution historical maps. Check it out to keep up with your history, learn something about history.	3
	Thematic Maps of World	2.99	A very educational application that lets you know our world through variety thematic maps. (Climate, Energy, Ethnography/Religion, Industry/Economy, Land Use, Military and Population.) Display thematic maps about our world about 500 maps and 20th century's variety maps.	/
	Maps of War	Free	Maps Of War, A Visual History of War, Religion and Government . Where has democracy dominated as the world's most popular form of government? How has the geography of religion evolved over the centuries? Who has controlled the Middle East over history ?	5
	Atlas: FREE	.99	Maps accessed from anywhere. Zoom in, zoom out. Take screen shot and then email to friends for inclusion in documents. Full screen and timezones shown. Physical features maps also included.	2

	National Geographic World Atlas	1.99	The National Geographic World Atlas enables you to browse, search, and zoom detailed maps of the globe, providing you the same rich detail, accuracy, and artistic beauty found in our award-winning wall maps and bound atlases.	4.5
	TapQuiz maps	Free	Play TapQuiz™ Maps for an easy and quick way to master geography. Learn the countries of the world through a fun and engaging game! Just tap the answer to each question on the map. Keep track of your progress through the statistics page so that you will always know where you can improve.	4.5
<b>HISTORY APPS</b>				
	Feudalism	1.99	Feudalism Study Guide stores all relevant pages about Feudalism from Wikipedia on your device so you can view them whenever you like with no need for Internet access. If you need to learn anything about Feudalism, you'll always have it with you! Every article is indexed so you can find the exact topic you need to learn about.	/
	Egyptian Hieroglyphics Decoder	.99	Egyptian Hieroglyphics Decoder app allows you to go to a museum, read an Egyptian book , or even look at Egyptian columns with Hieroglyphics and actually translate the Hieroglyphics into letters that you can understand! Now you can.	2
	iHistory	.99	iHistory can also be used as an interactive tour guide for our city topics, curious how Piccadilly Circus got it's name or how many people crossed the Brooklyn Bridge on opening day. To provide an interactive, easy to use interface for dozens of exciting topics.	/
	Firenze-Virtual History	9.99	Firenze - Virtual History, a three-dimensional journey using your iPad through the city that invented the Renaissance. Enter this epicenter of art, invention and history and even explore in detail masterpieces like those of Dante, Leonardo and Michelangelo.	4.5
	US History Timeline	Free	Description 'US History Timeline(Free)' is an application which shows the list of important events from US history. Each event includes a hot-link to the appropriate entry of Wikipedia. This will help users get more information about the event.	1
<b>GEOGRAPHY APPS</b>				
	GeoMaster	.99	Makes geography fun - yes, really", "I looked forever for a good map quiz game and this one is easily the best out there." "This is by far the best app ever and challenges your memory and mind while knowing very important information otherwise excruciating to learn.	3.5
	SOW	1.99	SOW lets you run a virtual farm or garden, right from your touch screen. You'll learn about the costs, equipment and work involved while enjoying a green experience. Challenge yourself and your friends to see who can make the most money	3
	GEO Walk HD	2.99	An illustrative <b>3D World Fact Book</b> ). It is an amazing resources. One can learn more about Blue Whale, the largest animal on the Earth, or a prehistoric monument Stonehenge. The update brings about 100 of new cards from different corners of the world.	4.5
	US Geogrpahy	4.99	Find your friends in the app, compete in 42 different challenges, and see how you rank against the rest of the world!	4
	World Geo Flashcards	1.99	Over 600 flashcards to drill you on maps, capitals, and even major world currencies	4.5
	Geography Quiz	.99	Test your knowledge about world geography – capital cities, oceans, mountains, lakes and more	2.5

# Communication/AAC Applications

- Communication/AAC Apps
- Articulation Apps
- Articulation Apps
- Voice/Volume Meters Apps
- Stuttering/Fluency Apps

## AAC-COMMUNICATION APPS

Icon	App Title	Price	App Description	Rate
	ChoiceBoard Maker	Free	Can make multiple choice questions with pictures on your iPad.	4
	DAF Assistant	9.99	Delayed auditory feedback and frequency shifting to help improve stuttering.	4
	Expressionist	9.99	Cartoon drawings with 120 commonly used expressions in 7 categories and 1000+ nouns.	/
	iCommunicate	34.99	Pre-loaded pictures and storyboards/routines (e.g., schedule) facilitate language comprehension.	4.5
	iConverse	9.99	AAC tool to express 6 different icons representing basic needs: food, drink, sick, bathroom, help, break.	2.5
	In My Dreams	.99	Learn reading, matching, and sign language skills via animations paired with text and recorded audio.	3.5
	iPrompts	49.99	Visual prompting tool containing original artwork for schedules, a timer, choice prompts, and a library.	3.5
	iSpeak Spanish	1.99	Uses high quality text-to-speech to translate English to Spanish and Spanish to English.	3.5
	iSpeech	3.99	List of sounds for developmental ages 3 to 7+, and explanations for forming and teaching the sounds.	2
	iSpeech Toddler Sign	1.99	Two animated children, Sadie and Sammy, animate 30 signs each, with accompanying explanations.	3.5

	Toy cleanup! <i>(*ipad only)</i>	1.99	Toy Cleanup is a fun and addictive arcade game that teaches kids of all ages the important life skill of separating/recycling different types of common household objects when cleaning up!	4
	Conversation Builder	3.99	The auditory pattern of conversation is presented in a visual format to help students recognize and master the flow of conversation. Students will learn when it is appropriate to introduce themselves, ask questions, make observations and change the subject of the conversation.	5
	I greet you	.99	iGreet you is a simple communication aid for children who need to work on greetings. Two simple buttons provide both male and female voice output. Developed by Smarty Ears and Lucy Nutt, a certified Speech-Language Pathologist.	4
<b><u>PERSONAL SAFETY</u></b>				
	Elementary Safety	Free	Do you know all the safety rules? Our extensive team of animal experts show you how to play and stay safe both at home and when outside. Everything is more fun when you play safely! This app is divided into 9 categories: Home Safety , Outdoor Safety, Road & Car Safety, Animal Safety Fire Safety, Electricity Safety, Water Safety, Personal Safety, Emergency Safety	/
	Living Safely <i>(*ipad only)</i>	19.99	Living Safely provides self-directed learning sessions for 27 important safety skills topics based on proven content developed by the Attainment Company. Living Safely provides an accessible learning tool that is specifically designed to be used directly by individuals with autism, learning or other developmental disabilities at their own pace on the coolest technology platform there is	4
	Touch Tutorial	2.99	Touch Tutorial was designed by a BCBA (Board Certified Behavior Analyst) to teach users with little to no experience with new technology how to use touchscreens. This application uses easy to understand language and icons to teach foundational skills and then builds on these skills so that the user learns many of the common gestures necessary to operate a touchscreen device.	3
	Community Signs	.99	The Community Signs and Words application is designed to teach and reinforce basic signs and words critical for independent living. For some, going on a shopping trip, using basic literacy skills, or understanding what to do when seeing a warning sign are very difficult tasks. The application provides easy-to-understand information that allows users to become more capable of functioning independently in their communities.	/
	Grooming	.99	The Grooming application is designed to teach and reinforce basic grooming skills critical for independent living. For some, going on a shopping trip, using basic literacy skills, or understanding what to do when seeing a warning sign are very difficult tasks. The application provides easy-to-understand information that allows users to become more capable of functioning independently at home, at work, and in the community.	/

	Hygiene	.99	The Hygiene application is designed to teach and reinforce basic hygiene for independent living. For some, going on a shopping trip, using basic literacy skills, or understanding what to do when seeing a warning sign are very difficult tasks. The Hygiene application provides easy-to-understand information that allows users to become more capable of functioning independently at home, at work, and in the community.	/
<b>SELF-MANAGEMENT/REGULATION</b>				
	iCounselor: anxiety	.99	Learn skills to reduce your anxiety! You first rate your level of anxiety on a color coded scale of 0 (at ease) to 10 (panicked).	3
	CalmCounter: Anger Management	2.99	The app opens up to a "I need a break screen" that vocalizes "I need a break" when it is tapped. The screen then transitions to a red screen with an angry face and the number ten. With each tap the screen transitions to a calmer face and color. In this way, the app prompts the user to count backwards from ten followed by a deep breath. The app also includes a simple social story with line drawings about anger. The social story talks about feeling angry and things you can do, like counting to ten, breathing deeply and taking a break, to calm yourself down.	3
	iCounselor: anger	.99	Learn skills to reduce your anger! You first rate your level of anger on a color coded scale of 0 (not angry at all/content) to 10 (enraged).	4
	Esteem Aid	.99	Welcome to Esteem Aid, the program that recognizes some of us just need a shot in the arm to get us going. Get the praise you deserve any time of the day. After all, who needs friends when Esteem Aid is only a pocket away?	3
	Sosh	34.99	Sōsh is an approach to social skills based on a decade of work with children, adolescents, and young adults who struggle with social difficulties. The Sosh framework divides social functioning into five areas essential to social skills development and success. With exercises, strategies and information for home, school, and therapy, Sōsh will be with you and your child, student, or client every step of the way.	3
	Sosh-The Shredder	.99	The Shredder, a relaxation and stress reduction tool. This feature, also contained within the full Sōsh™ app, has been so popular and garnered so much praise that it is now also offered as a stand-alone app.	3
	Sosh-Voice Meter	.99	The Voice Meter provides a visual rating of vocal volume to practice speaking at more appropriate levels. Simply hold the device near your mouth and speak at your normal volume to learn how loudly you speak and adjust your speech accordingly. Voice Meter will reflect if the speech volume is Too Soft, Too Loud, or Just Right. This is a great tool to use in school, at home, in groups, and in speech therapy.	3

## PARENT APPS

Icon	App Title		App Description
	Family Matters	1.99	"A Family Matters" has provided that push for thousands of families and we hope it can do the same for yours. We recommend using it for 5-15 minutes and alternating whose turn it is to answer a question or play an activity. This seems to get the best results. Wait for a table at a restaurant is our favorite time to use it, but car trips and holidays with the grandparents come in a close second.
	Cook It All Allergy Free	3.99	This is the essential tool for anyone dealing with food allergies. If you are allergic to Gluten, Dairy, Eggs, or Nuts, you no longer have to search for a recipe that does not contain your allergens. Perfect if you have Celiac Disease, Food Allergies, or are dealing with challenges of Autism and the Gluten Free Casein Free Diet (GFCF Diet).
	HomeRoutines	3.99	Take charge of your recurring household tasks with HomeRoutines. Create routine checklists, then complete them on your chosen days of the week, with reminder notifications to keep you on track, and a gold star for each completed task. Your checklists can automatically reset - start fresh each morning.
	iHomeopathy	Free	iHomeopathy is an "at your fingertips" guide to treating first-aid emergencies, childhood ailments and common illnesses.
	eCOVE SpED	Free	Gather objective data while observing teaching practices and student behavior. Nine very easy to use timer, counter, checklist, and scale tools included with more available. Additional information about data-based observations and eCOVE Software at <a href="http://www.ecove.net">www.ecove.net</a> .
	PeeMonkey	1.99	Your task sounds easy: help PeeMonkey pee into the toilet, but there are some complications: The pee-level in the room is getting dangerously close to that power outlet!
	Mom Maps	Free	Mom Maps lets you tap the collective wisdom of parents everywhere to find kid-friendly fun when you need it. Search our extensive list of parks, playgrounds, restaurants, museums and indoor play areas, as well as reviews by parents, for parents..
	Autism at Home	.99	Autism at Home provides ideas for creating learning spaces in the home for young children with developmental disabilities and autism. This app highlights parts of the book "How to Set up a Work Area at Home for a Child with Autism" as well as some pages from the AutismClassroom.com website and the AutismSpaces.com website.
	MyGreatKid	Free	We discuss issues including: basic parenting challenges, children with special needs, Autism. ADD / ADHD, education, special education, health, nutrition, medical, politics, speech therapy, sensory integration and anything else that floats across our parent radar screens. In addition to the blog we also have a weekly radio show
	KidStarz Lite	Free	KidStatz LITE is an app that enables you to house basic information about your child, his/her physical characteristics, medical information and a photo. In the horrible event that your child goes missing,
	SitorSquat	1.99	Ask your kids one minute if they have to use the bathroom and the answer is "no." The next minute, they're doing the potty dance. SitOrSquat is a great app to have on your phone when you are out-and-about in an unfamiliar place and need to know where the closest public restroom is located

	iRelaxMelody	Free	When you want to transport yourself away from the hustle and bustle of daily life, even for a few minutes, would you prefer to hear the sound of ocean waves, or perhaps rain? With this lite version, you can pick from eight different sounds or even mix and match to create the perfect combination to suit your tastes. It even offers music box sounds to help calm a crying baby.
	Grocery iQ	Free	Build lists by scanning the barcode with your iPhone camera, or by using the predictive search feature.
	IEP Checklist	Free	Provides a list of items (with description and end code) to complete for an IEP.
	Grocery Gadget	3.99	Save time and money. Be organized at home and efficient at the supermarket. Stop rebuilding shopping lists – just reuse them. Stop calling your spouse - share via sync.
